Hello Jennifer,

Thank you for your email and the details you provided. I've a few questions since your response does not completely cover everything I requested for:

Can you please share the name and address of each adult prison operated by Iowa DOC?

Can you please confirm that all the other adult prisons except Mount Pleasant Correctional Facility are fully air conditioned in the housing areas? I understand that Anamosa State Penitentiary is partially air conditioned.

I look forward to your response, many thanks in advance.

Best,

Disha

Hello Disha,

The DOC has one institution without air conditioning throughout all living units, the Mount Pleasant Correctional Facility (MPCF). The Anamosa State Penitentiary (ASP) has air conditioning in approximately half of its living units.

When the state experiences above average temperatures, inmates at both MPCF and ASP have extended access to cooling centers inside their institutions that are climate controlled. For example, areas like dining halls, recreation centers, libraries, and chapels. They are also provided with additional bottles of

water and ice multiple times a day to help them stay cool. This also includes extra fans in living units without air conditioning. Outdoor recreation and work activity is limited at all institutions across the state when there are significantly increased temperatures.

As is the case at all facilities, inmates have 24/7 access to healthcare so if there are any health related issues stemming from the heat they are addressed promptly. Staff and inmate safety is a top priority of the department which is why we have policies and procedures in place to ensure the safe and secure operations of our facilities in the midst of above average temperatures.

Thanks.
